

Additional Roofing Information:

- Most roof installations will be completed in one day; however, this does depend on the size of the roof as well as weather conditions.
- If no one is able to be home for the installation, that is no problem at all! We simply ask that you clear the driveway of any vehicles, trailers, etc. for the day of installation to make space for the bin and roofing materials. We also ask that we have access to an exterior power source for our equipment.
- If necessary, Marlad will move any items from around your home (eg. patio furniture) and put down plywood and tarps to prevent any damage. However, we do ask that you move any other exterior valuables that are at risk of being damaged by falling roof debris.
- Marlad will supply a small dumpster bin for the duration of the roofing installation. This is typically delivered the morning the work begins and is removed the following day (depending on the size of the installation). To protect your driveway, the bin company will put down wood beneath the bin. Once the bin is removed, the bin company will perform a cleanup of the area as well.
- The shingles and other materials for your roof will be delivered by the supplier the day before the installation is scheduled. They will be placed as near to the house as possible. For some installations, the shingles will be pre-loaded by the supplier on the roof approximately a week prior to installation. The materials are always placed in a secure and safe manner.
- Please note: With cathedral ceilings the drywall is fastened directly to the roof rafters so Marlad cannot be held liable for damage to drywall. Please advise if there are cathedral ceilings so that extra care may be taken.
- Customer communication and satisfaction is very important to us. Please feel free to contact us at any point during or after the installation with any questions and/or concerns and we will be happy to help. As a valued customer, we'd also appreciate your feedback. Feel free to review us on any of the following: HomeStars, Better Business Bureau, Google.

**We thank you for trusting us with your roof installation and
look forward to working with you!**
