CAMBRIDGE®

Architectural Shingles

CLASS 3 IMPACT RESISTANT

iko.com/na

Stunning Looks with Dependability

IKO Cambridge shingles have been a trusted choice for new construction and re-roofing projects for decades. Known for their reliable performance, they provide a high-quality solution and excellent value.

CLASS 3 IMPACT RESISTANT

Special colourfast granules embedded in **Cambridge shingles** help inhibit the growth of blue-green algae that can cause unattractive black stains, streaks, and discolouration.

Colour Featured: ***Dual Black***

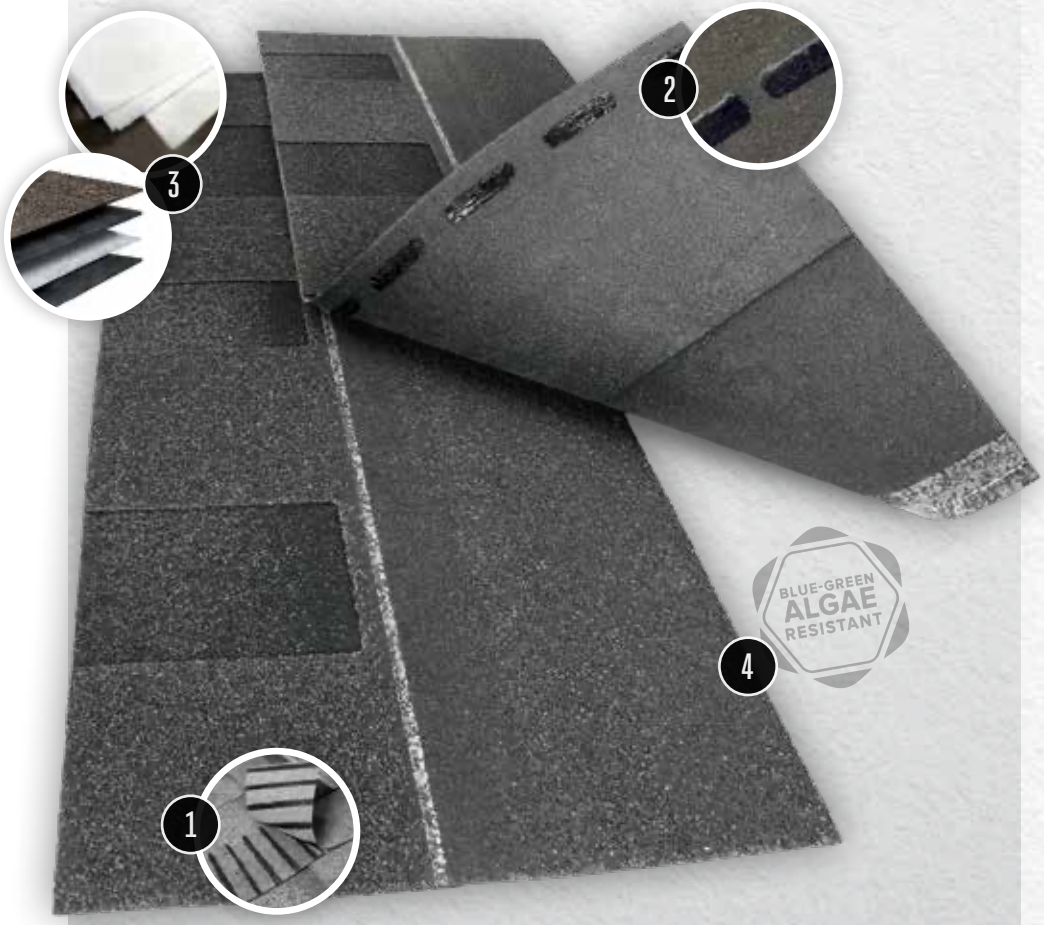

Now you don't have to choose between style, durability, or dependability. IKO Cambridge shingles offer it all in beautiful, unique looks that match your home's style.

The IKO Difference

With a legacy of craftsmanship that spans over 75 years, we know quality. That's why contractors and their customers trust IKO to deliver beautiful, high-performing roofing systems that can withstand the most rigorous conditions — and continue protecting families for generations to come.

What sets Cambridge Shingles Apart

1 Tough adhesive
We use five strips of our tough, construction-grade adhesive to laminate the shim to the tooth.

2 Stay-put bonding
IKO's proprietary **FastLock®** sealant strips get extra tacky when activated by the heat of the sun to maximize bonding and protect against wind uplift and blow-off.

3 Fiberglass mat core strength
Our fiberglass mat is coated top and bottom with weathering asphalt, then surfaced with coloured granules for exceptional durability and structural integrity.

4 Built-in algae resistance
Algae-resistant granules help inhibit the growth of blue-green algae, which can cause unsightly black streaks, stains, or discolouration.

STANDARDS & SPECIFICATIONS[4,5]

Limited Warranty[1]	Limited Lifetime[3]	Length	40 7/8 in (1,038 mm)
Iron Clad Protection[1]	15 Years (Canada ONLY)	Width	13 3/4 in (349 mm)

ASTM D3018 • ASTM D3161 - Class F • ASTM D7158 - Class H • CAN/ULC S107 - Class A • CSA A123.5 • FM 4473 - Class 3[6] • UL 2218 - Class 3[6]

SEE IT ON A ROOF

Cambridge shingles aren't just nice to look at. They boast a number of features that keep your home and family covered:

- Heavy-duty construction from a fiberglass mat core.
- Class 3 impact resistance rating[6] against hail*.
- FastLock® sealant, activated by the warmth of the sun to seal down and help protect against wind uplift.
- A wide array of stunning colour blends to match your home's style.
- Blue-green algae resistance.
- Superior blow-off protection. Cambridge shingles are designed to help installers fasten them more accurately, helping prevent blow-off in high wind.

[6]The impact resistance ratings are solely for the purpose of enabling residential property owners to obtain a reduction in their residential insurance premium, if available. *This is not a guarantee of impact resistance against hail. Damage from hail is not covered under the limited warranty.

PROFORMAX ROOFING COMPONENTS			
1 DECK PROTECTION	2 SYNTHETIC UNDERLAYMENT	3 ROOF STARTERS	4 CAPPING SHINGLES
IKO GoldSeam® IKO StormShield®	IKO Stormtite®	IKO Leading Edge Plus™ IKO EdgeSeal®	IKO Hip & Ridge 12™ IKO Ultra-HP®

IMPORTANT! To ensure complete satisfaction, please view several full-size shingles and an actual roof installation prior to final colour selection as the shingle swatches and photography shown online, in our brochures and in our ***ROOF*Viewer®** tool may not accurately reflect shingle colour and do not fully represent the entire colour blend range nor the impact of sunlight.

NOTE: Product and colour availability may vary by region. [1]See Limited Warranty at IKO.com for complete terms, conditions, restrictions and application requirements. Shingles must be applied in accordance with application instructions and local building code requirements. [2]High-wind application is required. [3]"Lifetime" means the period of time commencing on the date of the completion of the installation of the shingles on the building, and continuing so long as the original Owner owns the building on which the shingles were installed. [4]All values shown are approximate. [5]Products are developed with reference to these standards. [6]This impact rating is solely for the purpose of enabling residential property owners to obtain a reduction in their residential insurance premium, if available. It is not to be construed as any type of express or implied warranty or guarantee of the impact performance of this shingle by the manufacturer, supplier or installer and damage from hail is not covered by the Limited Warranty. IKO recommends the use of its Class 4 impact resistance rated Hip and Ridge cap shingle in conjunction with the use of Class 4 impact resistance rated shingles, and the use of no less than its Class 3 impact resistance rated Hip and Ridge cap shingle in conjunction with the use of Class 3 impact resistance rated shingles. For further detail concerning the FM 4473 standard, visit the FM Approvals website. For the UL 2218 standard, visit the UL Solutions website.
