CLASS 3 IMPACT RESISTANT

iko.com/na

Proven Performance in Every Shingle

Your roof is your home's first line of defense against the ravages of severe weather, as well as everyday wind, rain, snow, and extreme temperatures. That's why proven performance isn't just a nice-to-have. It's a must.

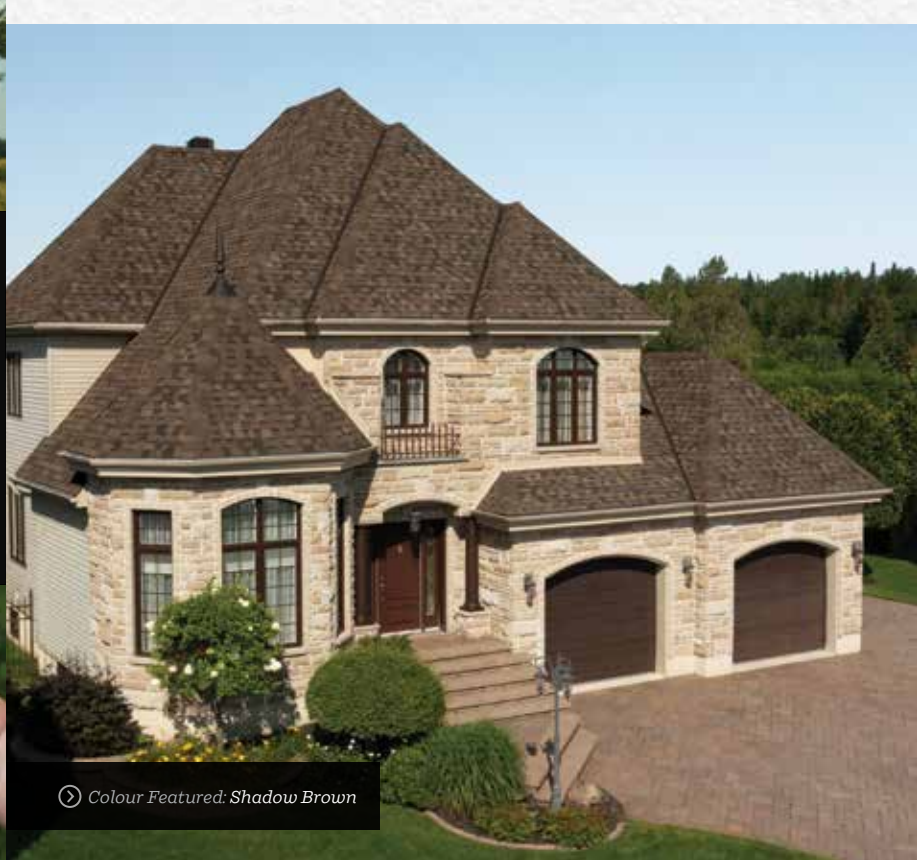

CLASS 3 IMPACT RESISTANT

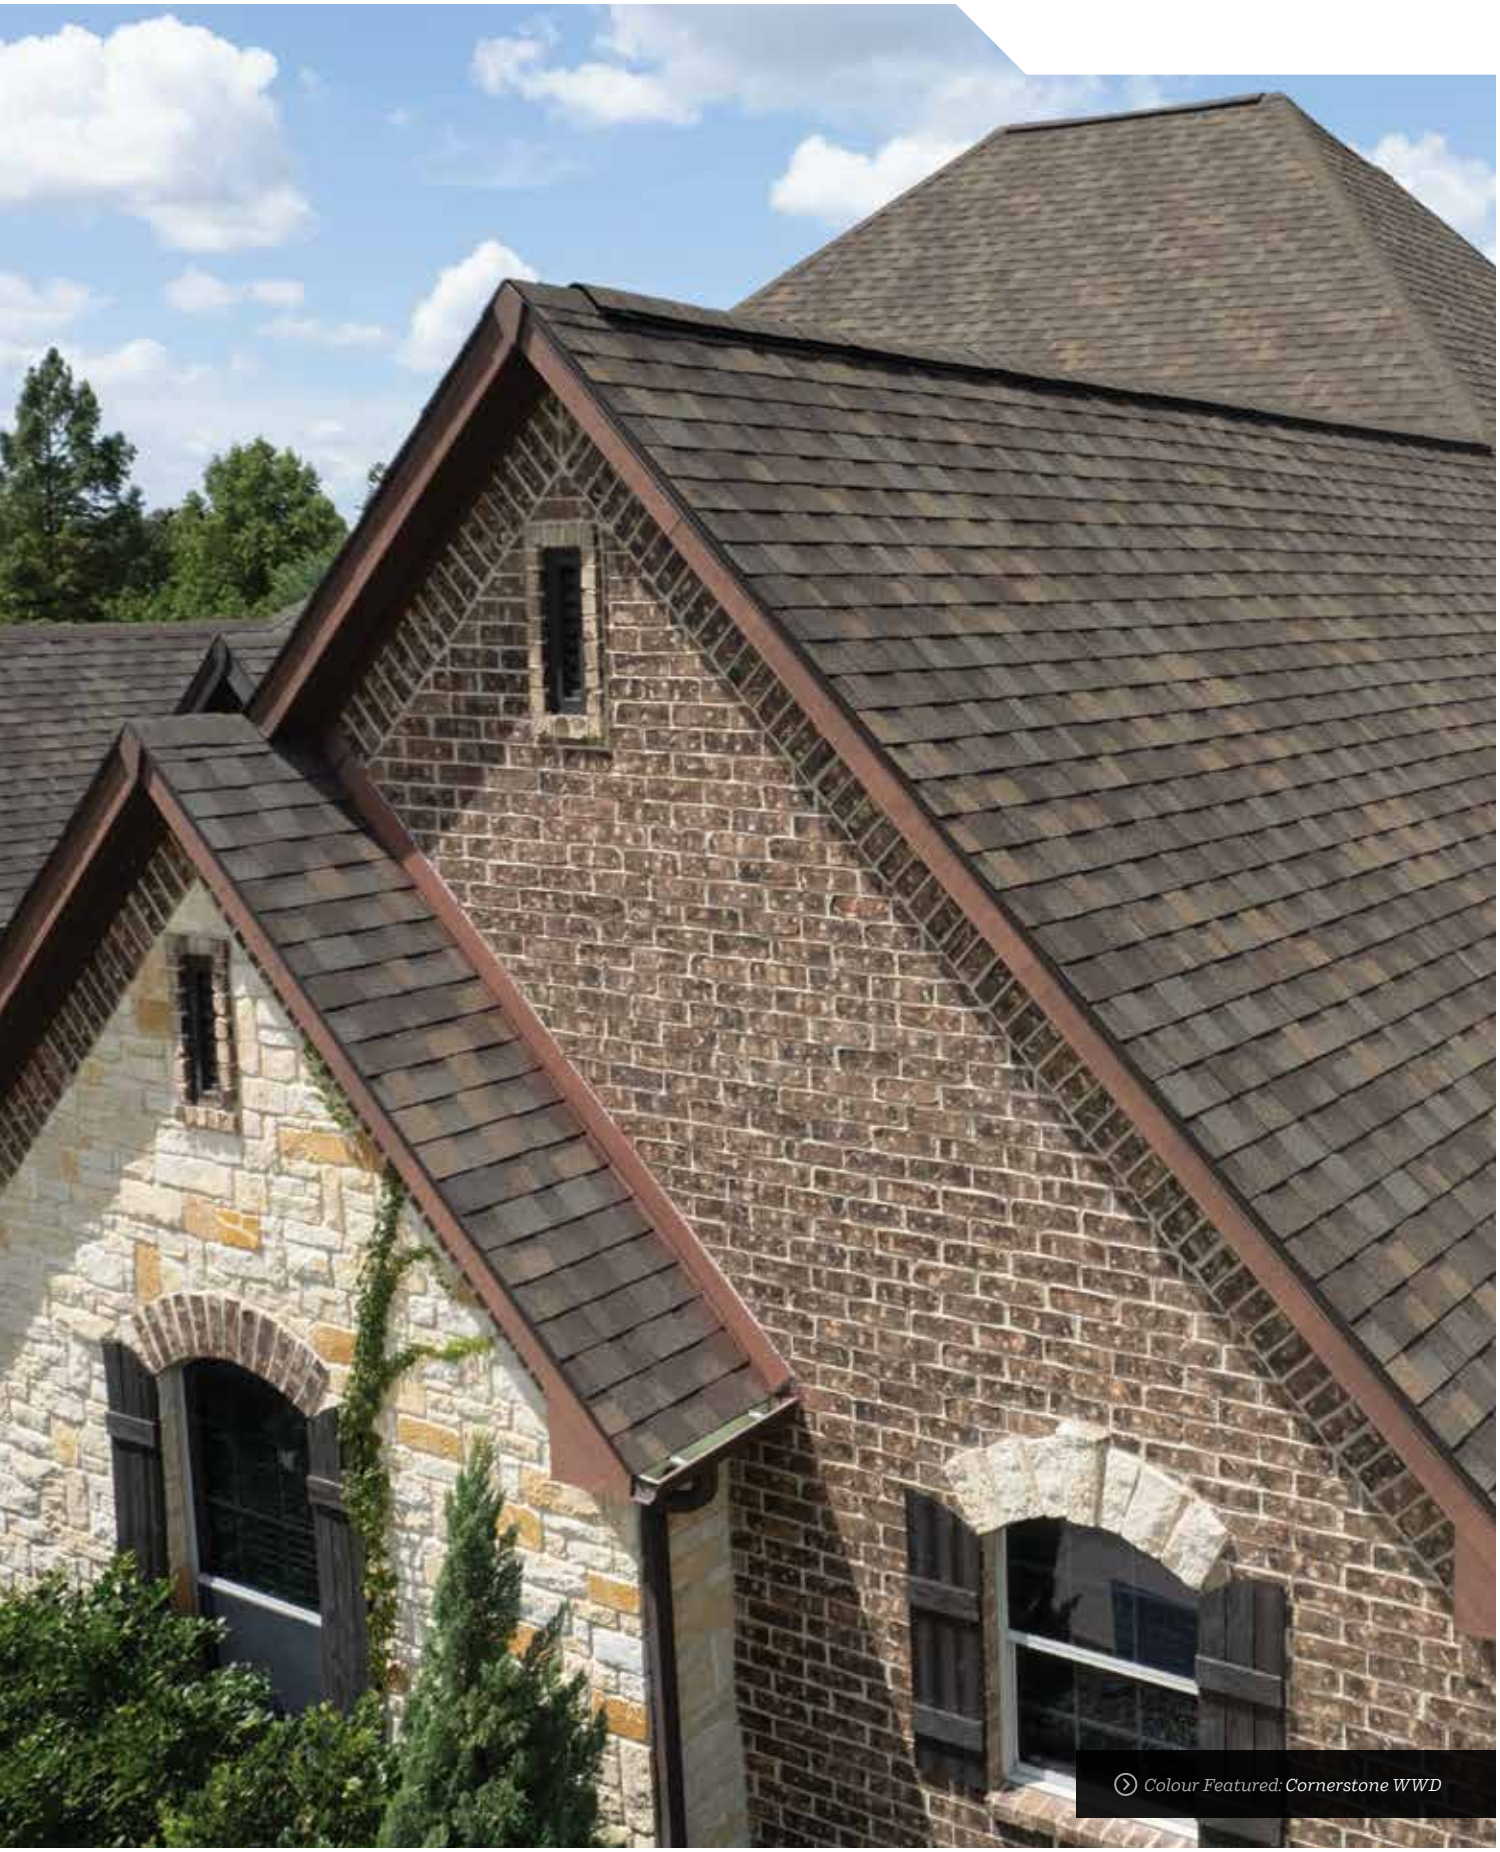

IKO Dynasty shingles qualify for a Class 3 impact resistance rating,[5] which may enable you to a reduction in your homeowner insurance premium, if available.

What Sets Dynasty Shingles Apart

STANDARDS & SPECIFICATIONS[3,4]

Limited Warranty[1]	Limited Lifetime[2]	Length	40 7/8 in (1,038 mm)
Iron Clad Protection[1]	15 Years	Width	13 3/4 in (349 mm)
Limited Wind Warranty[1]	210 km/h (130 mph)	Exposure	5 7/8 in (149 mm)
Limited Algae Resistance Warranty[1]	10 years (blue-green)	Coverage per Bundle	33 1/3 sq. ft. (3.1 sq. m)

ASTM D3018 • ASTM D3161 - Class F • ASTM D7158 - Class H • CAN/ULC S107 - Class A • CSA A123.5 • FM 4473 - Class 3[5] • UL 2218 - Class 3[5]

1 **Superior blow-off protection**
IKO Performance shingles feature a tear-resistant woven band on the back, designed to help prevent nail pull-through and shingle blow-off. A 1 ¼-inch-wide nailing surface on the front guides roofers to place their nails accurately, ensuring improved fastening strength and faster installation.

2 **Stay-put bonding**
IKO's proprietary **FastLock**® sealant gets extra tacky when activated by the heat of the sun to maximize bonding and help protect against wind uplift and blow-off.

3 **Tough adhesive**
We use five strips of our tough, construction-grade adhesive to laminate the shim to the tooth.

4 **Built-in algae resistance**
Colourfast algae-resistant granules help inhibit the growth of blue-green algae, which can cause unsightly black streaks, stains, or discolouration.

5 **Granule coverage and adhesion**
We make almost every material we use, including the granules used to protect underlying asphalt. Our exclusive, advanced technology creates beautiful, enhanced colour blends to fit nearly every home design and style.

6 **Heavyweight strength**
At the heart of every IKO asphalt shingle is a fiberglass mat. Weathering asphalt saturates the mat and coats its top and bottom layers. Protective granules on the surface ensure a durable, structurally sound product.

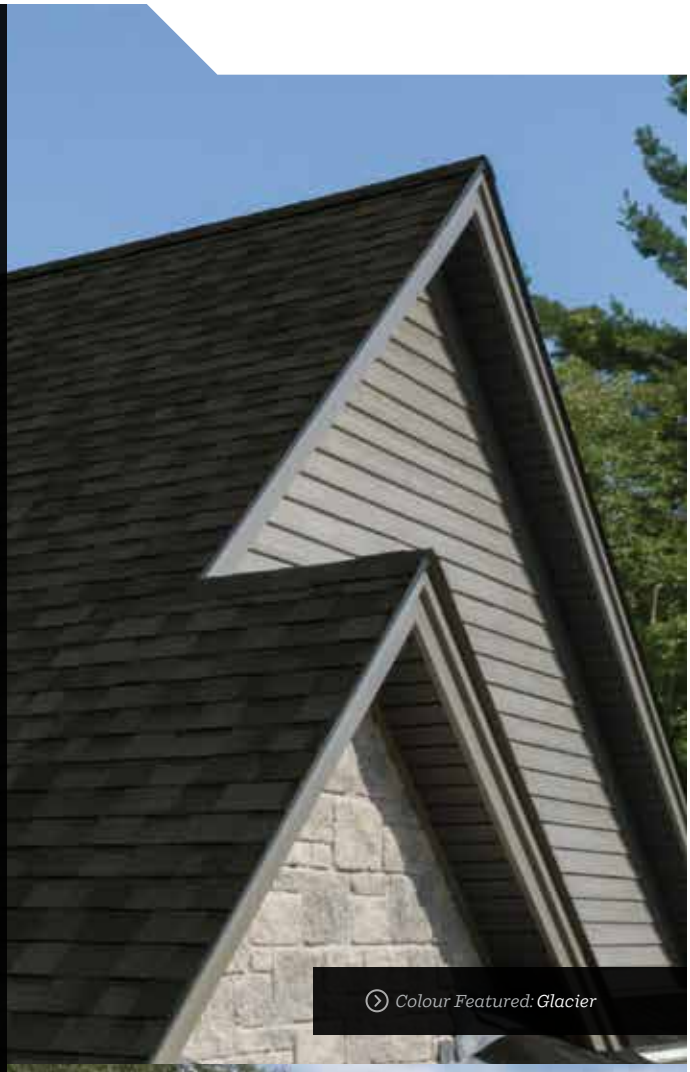

SEE IT ON A ROOF

Lesser shingles may tear or blow off when faced with inclement weather. IKO Dynasty shingles are engineered for performance with features that reinforce their strength at every turn:

- ArmourZone® 1 ¼-inch reinforced woven band nailing surface for unparalleled holding power.
- Class 3 impact resistance rating[5] against hail*.
- A wide range of enhanced colour blends.
- Resistance against blue-green algae streaks and discolouration.
- FastLock® sealant, activated by the warmth of the sun to seal down and help protect against wind uplift.
- Durable fiberglass mat core.

\+ *Dynasty shingles carry a limited wind warranty up to 210 km/h (130 mph)[1].*

[5]The impact resistance ratings are solely for the purpose of enabling residential property owners to obtain a reduction in their residential insurance premium, if available. *This is not a guarantee of impact resistance against hail. Damage from hail is not covered under the limited warranty.

Shingles are your home's first line of defense, but they protect, perform and look their best installed with the **IKO Proformax Integrated Roofing Accessories** shown below.

PROFORMAX ROOFING COMPONENTS			
1 DECK PROTECTION	2 SYNTHETIC UNDERLAYMENT	3 ROOF STARTERS	4 CAPPING SHINGLES
IKO GoldSeam™ IKO StormShield®	IKO Stormtite®	IKO Leading Edge Plus™ IKO EdgeSeal®	IKO Ultra-HP® IR IKO Hip & Ridge 12™

IMPORTANT! To ensure complete satisfaction, please view several full-size shingles and an actual roof installation prior to final colour selection as the shingle swatches and photography shown online, in our brochures and in our ***ROOF*Viewer®** tool may not accurately reflect shingle colour and do not fully represent the entire colour blend range nor the impact of sunlight.

NOTE: Product and colour availability may vary by region. [1]See Limited Warranty at IKO.com for complete terms, conditions, restrictions and application requirements. Shingles must be applied in accordance with application instructions and local building code requirements. [2]"Lifetime" means the period of time commencing on the date of the completion of the installation of the shingles on the building, and continuing so long as the original Owner owns the building on which the shingles were installed. [3]All values shown are approximate. [4]Products are developed with reference to these standards. [5]This impact rating is solely for the purpose of enabling residential property owners to obtain a reduction in their residential insurance premium, if available. It is not to be construed as any type of express or implied warranty or guarantee of the impact performance of this shingle by the manufacturer, supplier or installer and damage from hail is not covered by the Limited Warranty. IKO recommends the use of its Class 4 impact resistance rated Hip and Ridge cap shingle in conjunction with the use of Class 4 impact resistance rated shingles, and the use of no less than its Class 3 impact resistance rated Hip and Ridge cap shingle in conjunction with the use of Class 3 impact resistance rated shingles. For further detail concerning the FM 4473 standard, visit the FM Approvals website. For the UL 2218 standard, visit the UL Solutions website.
